

Endrit Bejta

Shopify Developer · Frontend Developer

Fushë Kosovë, Kosovo · +383 49 487 989 · endrit.bejta@hotmail.com

PROFESSIONAL SUMMARY

- Shopify developer with 4+ years building and maintaining high-performing storefronts for international e-commerce brands.
- Specialized in Shopify theme development (Liquid), app integrations, and Shopify APIs, with modern front-end work in React, Shopify Hydrogen, JavaScript, and TypeScript.
- Improved Google PageSpeed Insights scores by up to 20 points across multiple storefronts; strong focus on Core Web Vitals, accessibility, and A/B testing.
- Work closely with designers, marketers, and stakeholders to ship conversion-focused features.

EXPERIENCE

Shopify Developer — GRENION Brands

Berlin, Germany (Remote) · Jan 2022 – Present

Key Brands: Banana Beauty · HelloBody · MyRapunzel · Sophie Rosenberg

- Own end-to-end development and maintenance of 4 production Shopify storefronts, from theme implementation through deployment.
- Improved Google PageSpeed Insights Performance scores by up to 20 points (approx. 45–50 to 65–70) across multiple storefronts through theme enhancements, asset optimization, lazy loading, and JavaScript optimization.
- Build reusable theme components and custom storefront features with Liquid, JavaScript/TypeScript, and React across the Dawn, Horizon, and Concept themes, plus headless components with Shopify Hydrogen.
- Integrate Shopify apps, Shopify APIs, and third-party services to extend store functionality.
- Implement A/B testing experiments with marketing to improve conversion-focused storefront experiences.
- Deliver through Git/GitHub workflows with CI/CD, working directly with designers, marketers, and product owners.

Project Manager — Kosovo Electricity Distribution Company (KEDS)

Kosovo · Sep 2019 – Jan 2023

- Managed electrical distribution projects from planning through delivery, coordinating field teams and contractors.
- Produced technical reports and data analysis to support engineering and investment decisions.
- Oversaw site engineering, ensuring specifications, timelines, and safety standards were met.
